PROFESSIONAL SUMMARY

Computer Science engineer (B.Tech, KIIT) turned technology business development professional with a record of exceeding revenue targets while selling high-ticket AI, software engineering and cloud programs. Closed 83 units against a target of 80 at upGrad School of Technology and achieved 228% and 174% of monthly revenue targets at PW Skills. Combines consultative selling, CRM-led pipeline management and hands-on Python, FastAPI and generative AI development. Co-author of a Springer-published research paper.

CORE SKILLS

Business Development: Consultative Selling, High-Ticket Sales (INR 20 Lakh), Lead Qualification, Pipeline Management, Revenue Target Achievement, Stakeholder Engagement, Objection Handling, Technical Product Communication, Outbound Outreach

CRM & Tools: Salesforce, HubSpot, Pipeline Analytics, Customer Lifecycle Tracking, Streamlit

Technical: Python, FastAPI, REST APIs, JWT Authentication, PostgreSQL, React, RAG, Generative AI, LLM Integration, OpenCV, Git

PROFESSIONAL EXPERIENCE

Business Development Associate - Technology Programs

upGrad School of Technology | Bengaluru, India | Apr 2026 - Present

- Closed **83 units against a target of 80** (104% of target) in 5 months, selling AI, software engineering and cloud programs with an **INR 20 Lakh ticket size**.
- Led technical product discussions with prospects and families, translating program curriculum and career outcomes into clear value propositions.
- Managed the full pipeline from lead qualification to enrolment using structured CRM workflows and consistent stakeholder follow-ups.
- Built and deployed the **Catalyst AI Chatbot** (Python, Streamlit) to answer prospect questions about the upGrad SOT Catalyst program.

Business Development Associate

PW Skills (Physics Wallah) | Bengaluru, India | Jun 2025 - Oct 2025

- Achieved **228% and 174% of monthly revenue targets**, generating **INR 5.7 Lakh and INR 5.4 Lakh** in successive months.
- Managed pipeline, customer lifecycle tracking and structured outreach for technology-focused learning products using **Salesforce and HubSpot**.
- Advised learners on technology career paths and matched program offerings to their goals to convert enquiries into enrolments.

PROJECTS

- **Catalyst AI Chatbot** (Python, Streamlit): live AI assistant answering questions about the upGrad SOT Catalyst program. chat-bot-sot.streamlit.app
- **Document Q&A System** (Python, FastAPI, RAG): document ingestion, semantic retrieval and grounded LLM answers.
- **Task Management System** (React, FastAPI, PostgreSQL): 15+ REST endpoints, secure JWT authentication, role-based access control and a normalized database schema.
- **Smart Attendance System** (OpenCV, Python, ResNet-34): real-time face recognition using CNN-based embeddings and cosine similarity with automated attendance tracking.

PUBLICATION & ACHIEVEMENTS

- **Co-author and presenter**, "A Progressive Smart Attendance System using Facial Feature-Based Recognition", ComSIA 2025, Springer.
- **First Runner-Up**, AI AlChemy Hackathon 2024: built an ML-powered web application in a time-constrained competition.
- Solved 200+ data structures and algorithms problems on LeetCode.

EDUCATION

B.Tech, Computer Science and Engineering | KIIT University, Bhubaneswar | 2021 - 2025

CERTIFICATIONS

Generative AI Fundamentals | Databricks Academy
